Screed System 5

Concrete Screed System

Creation
TOPCON — 2002
70 years of inspired creation

Keep your machine...
Now you can get better
than new performance at
a fraction of the cost
from Topcon.

SCREED SYSTEM 5 COMPONENTS

LS-B2 Laser Receiver

- repeatable precision
- compatibility with all lasers
- zero deadband receiver eliminates need for machine slope.
- Self-Adjusting LCD, bright in sunlight, dim in the dark.
- Compatible with all of your machines
- Built-in clamp fits many pipe shapes and sizes

Slope Sensor

- Exclusive reduced slosh technology for fast, accurate response
- Cast housing, protected connectors. Durable!

System 5 Control Box

- Complete fingertip control
- Large, graphical LCD
- Adjust on-grade from the seat
- Auto-raise/lower at strike start and finish
- Flash upgradable memory via laptop

flexible

Until now, you were stuck with the controls that came with your screed. Upgrading meant a new machine. But not anymore. Now you have a choice.

economical

For a fraction of the cost of a new machine, you can upgrade to Topcon's Screed System Five and experience performance better than new.

compatible

A seamless upgrade to your existing controls, System Five is the affordable alternative for your screed control needs.

Exclusive System 5 Features:

- F-number screed accuracy unmatched by standard systems
- Smooth, high-precision proportional valves allow faster screeding while reducing the risk of rippling or ridging of the mat
- "Beam block" compensation lets one receiver automatically take control if the other loses the beam
- Control box puts everything at the operator's fingertips

Want to get even more from your new Topcon system? It's as easy as a Topcon laser. World leading technology, World's best prices.
From start to finish, Topcon positions you for success.
